Search and Rescue - 1
8 Hours

This class covers the basic skills a firefighter needs to function efficiently during interior search and rescue missions using self-contained breathing apparatus. The class emphasizes the basic functions of a search team in locating and removing victims. It will cover techniques on how to perform a primary and secondary search in occupancies as well as emergency procedures firefighters must initiate should they become separated from the search team or become disoriented.

PREREQUISITES: Meets NFPA 1001 Firefighter performance requirements or Firefighter I level trained.
Sponsored by Fire Service Agency and/or enrolled in fire service educational program or course of study.

CLASS DATES: March 7, 2015
June 27, 2015
September 19, 2015
November 21, 2015
